From the President

Richard T. Heckman

2002 was a year of challenge and opportunity for your community college and its Foundation. In this Report to the Community, you will read about some of those challenges and about how your community college seized upon opportunities within those challenges.

The content of this Report is

organized within the framework of the five strategic priority areas of RCC's 2000 – 2003 strategic plan: (1) technology in support of access to quality educational experiences, (2) employee development in support of College goals, (3) quality space and facilities in support of quality educational programs and services, (4) enhanced access to education, and (5) workforce/economic development in support of Randolph County.

In this Report, you will learn, for example, how RCC's distance learning program has helped hundreds of people meet their educational goals. You will learn about one of RCC's outstanding faculty members. You will learn about how the College is upgrading its physical facilities through use of proceeds from the N.C. Higher Education Bonds. You

will learn about your College's Academic Excellence Award winners. You will learn how RCC is working with business and industry in our community. You will learn about enrollment and finances—and much more about your community college.

All of us at RCC are pleased to share this Report to the Community 2002 with you. Our hope is that you will find the report informative, enlightening, and a reflection of one member of this community helping other members of the community.

Richard T. Heckman, Ed.D.

Randolph Community College

Vision

Randolph Community College will become a college of first choice for people seeking opportunities through postsecondary education.

Mission

Randolph Community College is a public, comprehensive community college. As a member institution of the North Carolina Community College System, Randolph Community College's mission is to provide comprehensive education, training, and services to adults consistent with the identified needs of students and the community.

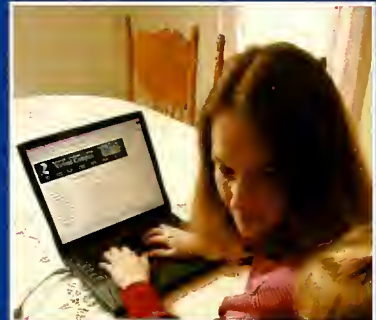

Values

At Randolph Community College, we value

- Our Students
- Academic Excellence
- Accessibility
- Our Community
- Our Employees
- Technology
- Effectiveness

Randolph Community College Strategic Priorities and Institutional Goals

1. **Technology.** Develop and implement an ongoing technology plan that supports access to and support of quality educational experiences and services.
2. **Professional Development/Training.** Develop and implement an institutional professional development plan that supports employee development and training in support of meeting College goals and objectives.
3. **College Facilities.** Provide quality space and facilities that are capable of supporting access to and support of quality educational experiences and services.
4. **Enrollment Management.** Ensure access to and success in education.
5. **Workforce/Economic Development.** Develop and implement a workforce development plan that supports economic development and quality educational experiences and services.

Strategic Priority #1 - Technology

Institutional Goals:

1. Upgrade and expand computer technologies in support of instructional and support activities.
2. Enhance network capabilities at and between the Asheboro and Archdale campuses.
3. Upgrade and add instructional equipment as detailed through the College planning process.
4. Expand and enhance distance learning opportunities.
5. Acquire and install appropriate instructional and administrative software.

Progress in 2002:

- Students reaped the benefits of full implementation of at-desk registration in 2002 (see story next page).
- The College upgraded computer labs and software.
- The Mechanical & Industrial department added a CNC Turning lathe with the latest CNC controls; two 2-axis CNC controls to current milling machines; and two new computers to run the most recent releases for CAD/CAM.
- The College negotiated a new communications contract to provide frame relay service and Internet point of connection service for the Archdale Campus.
- The College equipped a new computer learning laboratory at its recently opened North Asheboro Learning Center.
- The Photographic Technology department enhanced its digital photography equipment.
- Distance Learning course offerings increased from 34 curriculum courses in fall 2001 to 45 curriculum courses in spring 2002. Course offerings increased from 10 courses in summer 2001 to 19 courses in summer 2002.
- There was a significant expansion of Medical Office Assistant on-line classes. Four on-line classes were offered in 2000-2001; 41 on-line classes were offered in 2001-2002.
- A Student Services counselor has been designated to assist distance learners with College applications, placement testing, registration, academic advising, and financial aid applications.
- The Health Occupations department upgraded its computer-assisted instruction, including giving an interactive mannequin in the practice lab more realistic heart and lung sounds.

On-Line Classes Make Degree Possible For Young Mother

Associate in Arts student Holly Dunn found that on-line classes were the answer to her dream of becoming a teacher. Married with two daughters, Dunn said that taking classes on-line and good time management were critical to her success. She even found time to become active in RCC student activities, including the Student Government Association, Rotaract, and the Phi Theta Kappa honor society.

"I would never have gone back to school if it hadn't been for on-line classes. I was amazed at how many classes I could get on-line," said Dunn. "I'm a stay-at-home Mom, and I've been able to still do that. I did my classwork at night after the girls went to bed." She will transfer to Pfeiffer University in fall 2003 to finish her degree in elementary education.

At-Desk Registration Implemented

At-desk registration allows students to register in their advisor's office, so they don't have to stand in line at the registrar's office.

Carol Elmore, RCC's registrar since 1986, said the process of at-desk registration sort of evolved. "We have been working on having faculty register in their offices for several years....Students don't have to come to the registration area unless they have a problem."

Elmore said that another change recently implemented is an early registration period for *new* students. Traditionally, early registration took place before the previous semester ended and was limited to *continuing* students.

Elmore said the changes have made a dramatic difference in the lines at the registration office. "It's amazing the fewer numbers of students that we see," she said. "(Students) appreciate the fact that they don't have to stand in line."

RCC Distance Education student Holly Dunn (right) with her daughters, 3-year-old Kaley and 5-year-old Megan. Dunn said that on-line classes allowed her to go back to school in RCC's Associate in Arts program. She is now halfway to her goal of becoming an elementary school teacher. Photo by Greg Stewart, departmental chair and instructor, Photographic Technology.

Strategic Priority #2 - Professional Development/Training

Institutional Goals:

1. Identify and define priority areas for employee training and development.
2. Identify training/development resources.
3. Implement training/development activities as defined and prioritized.

Progress in 2002:

- The Library Services staff attended professional development workshops on web development, global education, diversity, Spanish language, CCLINC, and NC LIVE.
- RCC staff and adjunct faculty were trained in the use of presentation equipment (digital projectors) and PowerPoint. Also, adjunct faculty completed training in on-line delivery.
- Both full-time Criminal Justice Technology faculty obtained general state certification to teach in the Basic Law Enforcement Training program, and one CJT faculty member obtained specialized Physical Fitness state certification to teach in BLET.
- The College identified training needs for local fire, EMS, and law enforcement agencies in order to efficiently utilize the Emergency Services Training Center.
- The Basic Law Enforcement Training director attended Instructor Training Orientation at the North Carolina Justice Academy to enable RCC to train its own BLET instructors.
- The College implemented a plan for giving part-time instructors the opportunity to attain Microsoft Office Specialist certification.
- The College offered Sexual Harassment training for faculty and staff.

Autobody instructor Dan Moore (left) instructs student Greg Gainey on the Genesis Velocity. This machine is a computerized laser measuring system. (The chain in the foreground is attached to the car to pull the frame and body components back into proper alignment.) Moore attended a professional development training session to learn about the machine. Photo by Greg Stewart, departmental chair and instructor, Photographic Technology.

2002 Excellence in Teaching Award

Amy Brantley, program head and instructor for Office Systems Technology, was chosen as Randolph Community College's nominee for the 2002 Excellence in Teaching Award, sponsored by the North Carolina Community College System/First Union Foundation. Brantley has been teaching at RCC since fall 1980.

At Randolph Community College, nominations for the Excellence in Teaching Award are submitted from within the instructional area and an on-campus selection committee chooses the College's nominee.

The criteria for selection of instructors include consistent, excellent job behaviors that exhibit unselfish devotion and significant contributions to student success; student interactions and successful experiences/outcomes; classroom success and effective learning results; innovations in teaching (technology and methodology); leadership roles beyond the classroom related to teaching career; professional development activities and experiences that enhance teaching effectiveness; and past recognition and awards received as a faculty member.

Each North Carolina community college has the opportunity to submit a nominee for this statewide program, which awards \$1,500 to the overall state winner and \$500 each to four state finalists. An NCCCS selection committee chooses the state winners based on nomination forms submitted by each college.

A native of Asheboro, Brantley earned an A.A.S. from Randolph Community College, a Bachelor of Technology degree from Appalachian State University, and an M.Ed. from the University of North Carolina at Greensboro. In addition, Brantley has earned graduate hours in computer science from North Carolina A & T State University to become credentialed to teach in that area. She has received Microsoft Office User Specialist certifications in Word and Access.

Brantley is a member of the North Carolina Computer Instructor's Association. She is a past president and past secretary/treasurer of the Randolph Community College Faculty Association, served on the founding board of directors of the Business Instructor's Association of North Carolina Community Colleges and continued to serve on the board for eight years, and was a team member of the writing team for the Office Systems Technology curriculum during reengineering.

In addition, she was a participant in the Curriculum Improvement Project for Office Systems Technology from 1997 - 1999, for which she received a certificate for outstanding service and performance, and was nominated by her peers to be a Faculty Marshal at the 2002 RCC Graduation.

Amy Brantley

Strategic Priority #3 - College Facilities

Institutional Goals:

1. Upgrade, renovate, and enhance existing facilities as detailed in the Facilities Improvement Plan.
2. Acquire additional space to enhance services to the Archdale/Trinity area.
3. Evaluate and revise space utilization to make more efficient use of current space.

Progress in 2002:

- Construction of the Emergency Services Training Center was completed with the addition of a 3,750-square-foot classroom facility. It provides three classrooms, a weight room, shower facilities, and offices.
- The groundbreaking for the Foundation Conference Center was held on Sept. 3 and construction began on this facility which will provide a state-of-the-art meeting room for the College and the community.
- The Administration/Education Center "little theater" was given a badly needed renovation, adding more comfortable seating with adequate leg room, new paint, and new carpeting. The result is a brighter, more aesthetically pleasing learning atmosphere for students.
- The College renewed its contract to lease 8,000-square-feet of space at the Archdale/Trinity Annex. The annex has provided the Archdale/Trinity community with space for additional courses that would not have been possible at the Archdale Campus in Creekside Park due to space limitations.

- A plan was implemented to coordinate use of space between all instructional areas.
- The College made every effort to make sure every available space is being utilized for classrooms, including splitting some large classrooms into smaller.

Bond Money Pays For Renovations at RCC

Randolph Community College made a lot of progress in renovating facilities in 2002 using money from the statewide Higher Education Bonds, passed by voters in November 2000. RCC will receive a total of \$3 million in bond money over a five-year period. Part of the money is being spent for renovations and some will be earmarked for future construction, including the planned expansion of the Archdale Campus. The College spent approximately \$241,000 in 2002 on the following projects:

- Installed a new chiller for the Photography Imaging Center
- Applied restorative coating on the roofs of the Business Education Center and the Learning Resources Center
- Renovated restrooms in the Administration/Education Center located near Special Services
- Removed an underground storage tank
- Renovated the Administration/Education Center theater
- Recarpeted the Business Education Center
- Installed new partitions in the restrooms in the Student Services Center

This composite, made up of four smaller photos, of Carol Savchak's "Introduction to Sociology" class in the Administration/Education Center theater shows the updates made with the 2000 statewide bond funds. Students now enjoy more comfortable seating with plenty of leg room. New carpeting and paint made this room, which is located in the oldest building on campus, a better learning atmosphere for the hundreds of students who use it each year. Photo by Greg Stewart, departmental chair and instructor, Photographic Technology.

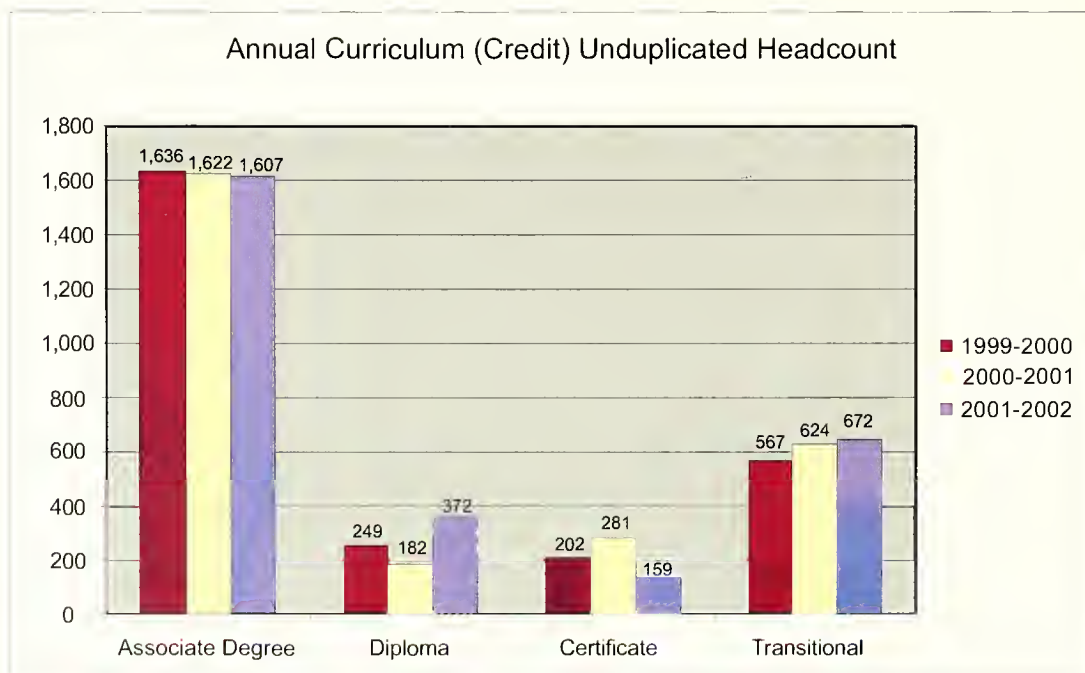

Strategic Priority #4 - Enrollment Management

Institutional Goals:

1. Create a College-wide marketing plan.
2. Create a College-wide student recruitment plan.
3. Offer a comprehensive retention program.

Progress in 2002:

- The College's Marketing Committee developed a comprehensive marketing plan for the College, going far beyond advertising to include programs, services, learning, technology, and the College's image and identity.
- RCC held a campuswide Open House in April and several departments hosted individual open houses, including the Business Technology and Mechanical & Industrial departments.
- The annual Financial Aid Night brought more than 100 high school students and their parents on campus for a financial aid and admissions information session.
- Student Success Seminars were held monthly on such topics as Study Skills, Test-Taking Skills, Time Management, Stress Management, and Career Planning. Students seeking readmission after being suspended for academic reasons were routinely enrolled in these seminars to help facilitate improved academic success.
- The Student Services area adopted an Enrollment Management Plan which provides for systematic contacts of students who do not reenroll.
- The General Education department made significant additions to course offerings for the 2002-2003 school year (based on student feedback and review of transfer institutions' requirements) including a second foreign language, physical education courses, courses with a global perspective, additional science courses, and additional courses in the humanities/fine arts and social/behavioral sciences areas.

Academic Excellence Winners

Two Randolph Community College students were among 118 community college students honored at the fifth annual Academic Excellence Awards luncheon in Raleigh on May 14. The annual event, hosted by the North Carolina Community College System, is to recognize excellence and encourage scholarship among the more than 780,000 students of the NCCCS.

Sherry Dunn Haszto, an Associate Degree Nursing student, and Sandra Sanders, an Associate in Arts (College Transfer) student at RCC, were selected based on their academic achievement and demonstration of leadership ability.

A native of Troy, Haszto graduated from West Montgomery High School, earned her Nursing Assistant I certificate at RCC and worked at Randolph Hospital before entering the ADN program full time. Her dream is to become an oncology nurse. At RCC, she has been named to the Honor List, and she is active in the First Christian Church in Randleman.

Haszto is married and lives in Randleman with her husband, Kenneth, and two daughters, Stephanie and Elizabeth. She is the daughter of J.W. and Phyllis Dunn of Mt. Gilead.

Sanders is originally from Eagle Pass, Texas, and graduated from Eagle Pass High School. She earned certificates in medical secretary and medical records from Central Texas College, and was a medic in the U.S. Army for two and one-half years.

Sanders is a member of the Phi Theta Kappa honor society at RCC, and she has worked teaching Spanish as an RCC continuing education instructor since September 1998. She plans to transfer to Pfeiffer University and major in elementary education. She and her husband, Ricky, live in Denton. She is the daughter of Paula Mireles of Eagle Pass.

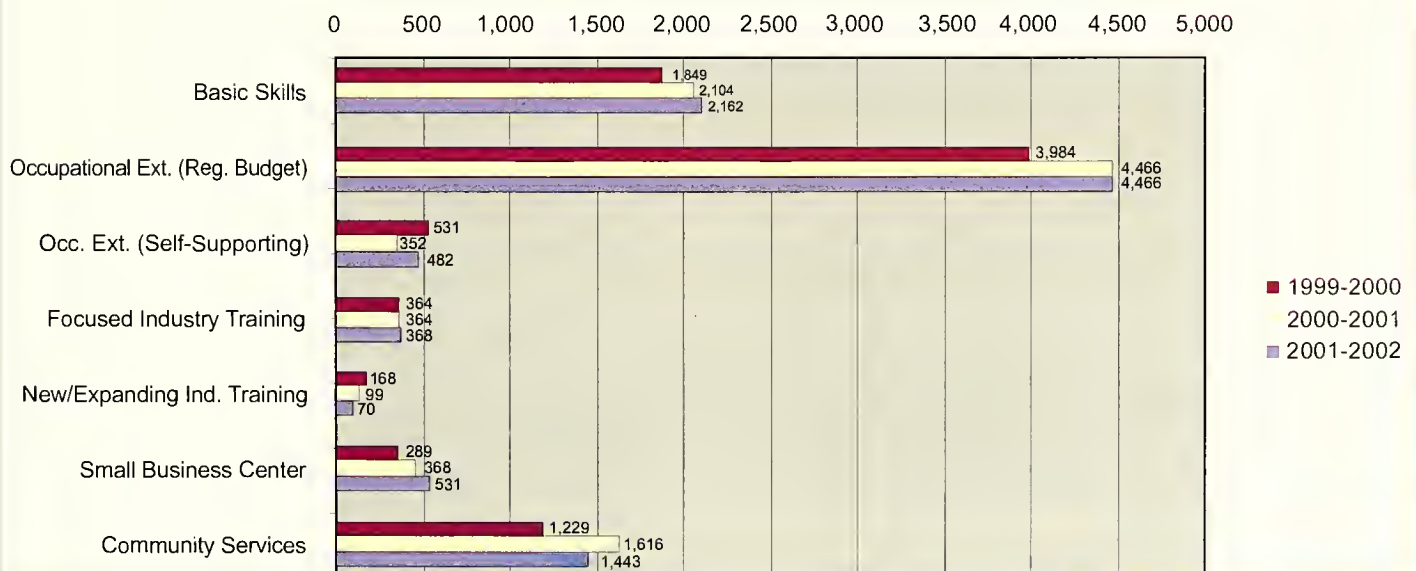

Sherry Haszto

Sandra Sanders

Annual Continuing Education (Noncredit) Unduplicated Headcount

Strategic Priority #5 - Workforce/Economic Development

Institutional Goals:

1. Expand workforce and economic development outreach efforts.
2. Research and implement new methods of course delivery.
3. Research and expand instructional programs/services in support of need.
4. Use assessment/evaluation process to improve instructional programs and services.
5. Develop a staffing plan that reflects documented need and supports quality educational programs/services.

Melissa Voncannon (above) at work at Randolph Hospital. Melissa graduated from RCC's Nursing Assistant I class in December and started Phlebotomy classes in May. Photo by Chuck Egerton, Photographic Technology instructor.

Turning a Life Around

Life has turned around for 38-year-old Melissa Voncannon since last June when she was laid off from Moll Industries, where she had worked for over six years. "I felt like I had worked for six years for nothing," said Voncannon, but she was determined to turn the experience into something positive.

Voncannon was no stranger to adversity—in December 1987, she and her 3 1/2 year old son were in a car accident in which her son was paralyzed. She stayed home caring for him for nine years before starting work at Moll (formerly Mid-State Plastics). When her son was ready to start college, her thoughts turned that way as well. "When I took my son (to RCC) to register and buy books, I saw the JobLink Center," she remembered. She had a friend who had worked with JobLink to retrain after a layoff, so she decided to try it. The first class she enrolled in was "How to Survive a Plant Closing or Layoff." "I learned so much with that class," she said. "It made me feel better about myself." After enrolling in the Nursing Assistant I class, Voncannon decided she would continue with the Phlebotomy program. She graduated from NAI in December and started Phlebotomy classes in May.

Within weeks of finishing her NAI, she had a part-time job offer from Cross Roads Retirement Center and a full-time job at Randolph Hospital. She is still working both jobs. "I really enjoy helping people," she said. "It's a ministry type of thing. ...It is so unique the way things worked out."

Progress in 2002.

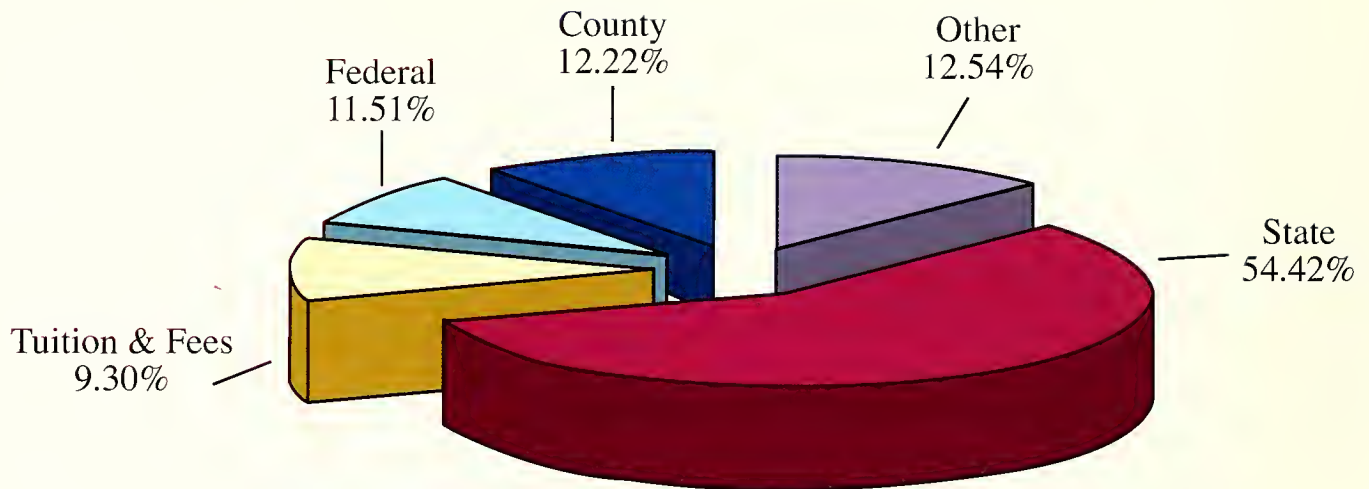

- The College's Business & Industry Services department served 77 manufacturing companies through Focused Industry Training (FIT) programs.
- The Human Resources Development (HRD) program, as part of the JobLink Center Rapid Response Team, met with 10 companies who had announced plant closings or substantial layoffs affecting 782 employees. The HRD program also served 230 students (mostly displaced workers) through course offerings.
- The College served 701 clients through Small Business Center seminars and workshops and provided 113 consultations.
- RCC was awarded a \$20,000 Digital Literacy Grant to help dislocated and unemployed workers.
- The Advertising & Graphic Design program added an optional student internship to its coursework, with 11 of 12 second-year students placed in internships the first year.
- RCC established a Phlebotomy Technician program in the summer of 2002 in response to community need.
- The College obtained approval and funding for a new Radiography program, another health care area in which local and national shortages are occurring.
- The General Education department added an additional English position for fall 2002 and an additional Biology position for spring 2003; both positions will teach courses that serve all curriculum programs at the institution.
- Additional part-time instructors were hired for Nursing Assistant and Phlebotomy.

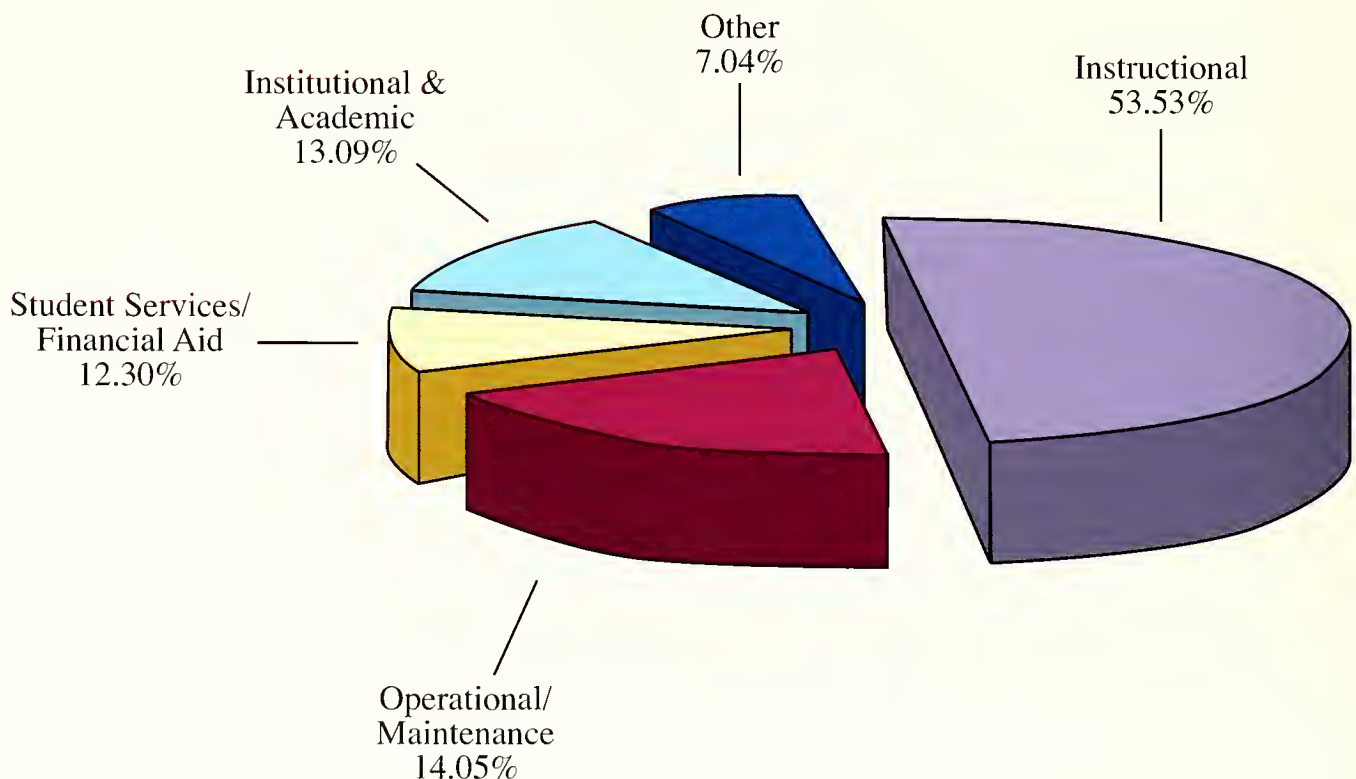

(L to R) At RCC's North Asheboro Center, Deanna Sanders, Stephanie Dunn, Lisa Pillion, Donnita Brown, and Lauree Sherman practice their Spanish skills under the guidance of Javier Salazar. Javier is a student in the English as a Second Language class that also meets there. Photo by Greg Stewart, departmental chair and instructor, Photographic Technology.

College Funding & Expenditures

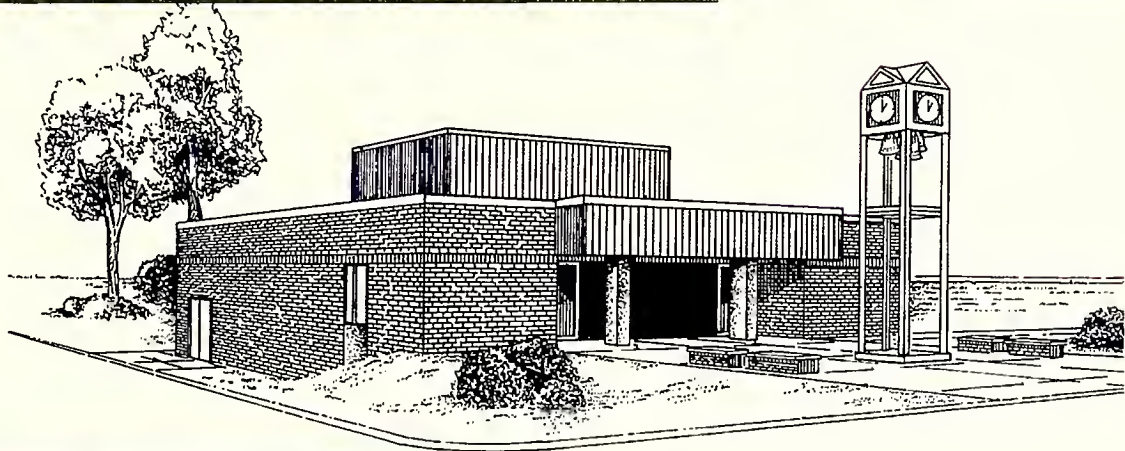

2001-2002 College Funding

2001-2002 College Expenditures

Randolph Community College Foundation

Construction began on the Foundation Conference Center in September 2002. The building will be the official home for the Foundation offices and will provide a versatile meeting place for the College and the community. RCC staff photos.

Outgoing President

Outgoing Foundation President Charles L. Allen has given five years of service to the organization. He was first nominated to the Corporate Board in February 1997 and became a member of the Board of Directors in 1998. Allen was elected vice president of the Foundation in 1999, and became president in 2001, serving for two years.

In 1999, Allen established and endowed the Allen Precision Industries Scholarship. It is awarded yearly to a Machining Technology student. A leading businessman as owner of Allen Precision Industries, he has been integrally involved in helping Randolph Community College grow and serve the community. That includes hiring RCC Machining Technology graduates for his business.

Allen is involved in many other community organizations including the Rotary Club of Randolph, Randolph County Economic Development Corporation, Randleman Board of Aldermen and Zoning Board, National Tooling & Machining Association, and Balfour Baptist Church.

Charles L. Allen

Incoming President

I am honored to serve as president of the Randolph Community College Foundation. As an alumnus of the College, I have firsthand knowledge of the quality education available right here in our community. I am grateful for the opportunity to give back to RCC through service on the Foundation Board.

Since its inception in 1979, our Foundation has been blessed with many generous donors—individuals, organizations, and businesses—who have assisted in providing scholarships for students and support for the College at many levels. Thanks to those donors for their ongoing commitment to education in our community.

The Foundation serves as an integral part of the overall plan for Randolph Community College. As we work together in this changing environment, many challenges lie ahead. Economic changes on the state level and within our own community force us to realize the importance of the role of the Foundation in supporting the goals of the College. Without this support, the College will be unable to meet the needs of students and the community.

Recognizing the changes that face us daily, we appreciate the continued support of this community. We do not take for granted the contributions of those who have given and those who will choose to give again and again. We take pride in Randolph Community College and its many friends who allow us to provide “excellence” in education in Randolph County.

Everyone enjoyed the refreshments at the annual Foundation Donor/Recipient Reception. Staff photo.

Student Ambassadors

Serving as an RCC Student Ambassador is an honor bestowed upon only a select few. Those students who have completed a minimum of nine hours with a GPA of at least 3.0, and who are enrolled for the spring semester are sent a letter of eligibility. They are then invited to apply for one of the ambassador positions. Finally, the field becomes narrowed and some are chosen for the interview process. After interviews are completed, the committee chooses individuals to represent RCC. The five ambassadors for the 2002 - 2003 academic year were Kim P. Cassell of Asheboro, Patrick Farlow of Sophia, Benny Hogan of Troy, Jennifer Jorgensen of Seagrove, and Lyn McGaha of Asheboro.

An Asheboro High School graduate, Kim P. Cassell is studying in RCC's Associate in Arts (College Transfer) program with plans to transfer to the University of North Carolina at Greensboro. Kim plans to obtain a degree in secondary education and become a high school teacher. She is a member of RCC's Beta Theta Rho chapter of the Phi Theta Kappa honor society and she was named to the National Dean's List.

Patrick Farlow is a student in RCC's Interior Design program. A native of Sophia, Farlow graduated from Randleman High School and earned a bachelor of science in business from UNC Greensboro. He also has completed the Program for Management Development at UNCG and the Duke Nonprofit Management Certificate program. After graduation, he plans to establish his own interior design firm.

Benny Hogan is a student in the Machining Technology program at RCC. He graduated from West Montgomery High School and attended UNC Pembroke and Sandhills Community College before coming to RCC. Benny is a member of RCC's Beta Theta Rho chapter of Phi Theta Kappa honor society. His dream is to drive a race car or work with a Winston Cup team in research and development in the machining department.

Jennifer Jorgensen is enrolled in RCC's Associate in Arts (College Transfer) program and hopes to major in art and minor in either English or nonprofit business, as well as obtain her teaching certificate. A graduate of Southwestern Randolph High School, Jennifer has been inducted into the Phi Theta Kappa honor society and named to the National Dean's List.

Photographic Technology student Lyn McGaha is originally from Ft. Lauderdale, Fla. She graduated from Deerfield Beach High School, and attended the RN program at Gaston Community College before transferring to RCC. She plans to go into biomedical photography, environmental photography, or forensics. Lyn is a member of the Professional Photographers of North Carolina.

Mini-Grant Awards

Mini-grants are awarded annually to RCC faculty and staff who demonstrate unusually innovative ideas for improving teaching and learning at Randolph Community College. The awards for 2002 - 2003 totaled \$9,975 and are listed below.

Uwharrie Dreams - This fine arts magazine represents the work of RCC students, faculty, staff, and community contributors. This is the second edition of this magazine.

ASE Evaluation - This mini-grant funds on-site ASE evaluation for the Automotive Systems Technology program to obtain certification under the guidelines stipulated by the National Institute for Automotive Service Excellence. With this certification, RCC's program will be more closely aligned with the competency requirements of local high schools' automotive programs.

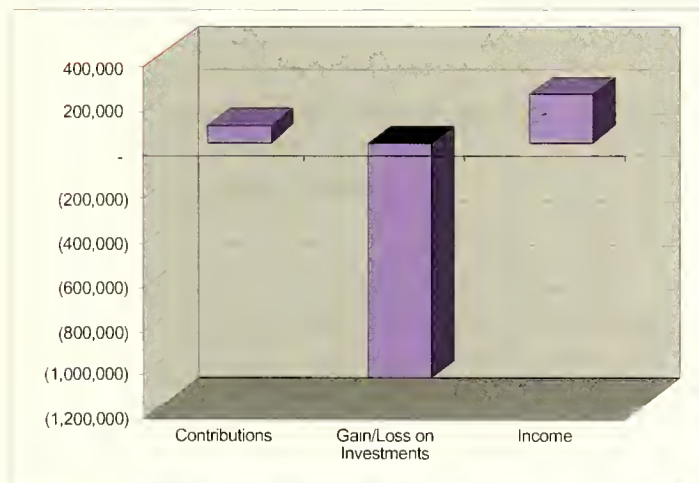

Tutoring Services - This mini-grant will provide tutoring services for students who were previously not eligible. Previously only students with a documented learning disability, a physical disability, an economically disadvantaged student, or a first-generation college student could receive tutoring. Monies from this mini-grant are used to pay qualified students to tutor other students in selected courses.

Financial Aid Night - This community-wide financial aid night was held on the Asheboro Campus in January to disseminate financial aid information to anyone in the community interested in learning more about college financial aid.

Translation - The final grant provided money for translation of college publications and signs into Spanish and other languages to create a more inclusive image for RCC campus visitors and international students.

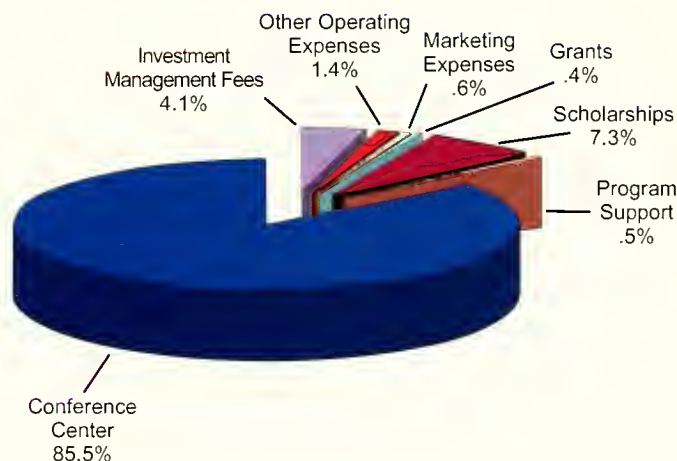

2002 Foundation Statement of Operations

Revenue

Total Revenue for 2002 – (\$819,805)

Expenditures

Total Expenditures for 2002 – \$935,254

Randolph Community College is an equal opportunity, affirmative action, Title IX institution that provides access to education, services and employment, regardless of race, color, religion, national origin, age, sex or handicap. 2,000 copies of this public document were printed at a cost of \$4,056. Fifty percent of the cost of this publication was paid from state funds.

www.randolph.edu

The background of the page is composed of large, solid-colored rectangular blocks. A vertical line divides the page into two main sections: a light cream-colored section on the left and a section on the right. The right section is further divided horizontally into a red upper half and a blue lower half. A thin, light blue horizontal line runs across the page, passing through the text. A thin white horizontal line is positioned just below the blue line, extending from the right edge of the page into the red block.
